

Cryo Sheer Aqua

Advanced triple-wavelength diode technology combining 755nm Alexandrite, 808nm Diode and 1064nm Nd:YAG in one handpiece for versatile hair removal across Skin Types 1–6, supported by advanced sapphire cooling.

Primary treatments: permanent hair removal, with an additional skin rejuvenation application. Treatment areas include face, body, scalp, underarms, bikini/intimate areas, legs, arms, back and chest. Laser Aesthetics SA specifically describes the Aqua as suitable for Skin Types 1–6, including areas such as the scalp, underarms and pubic areas, and says it can also be used for skin rejuvenation.

SPECIFICATIONS

Brand	
Technology	Triple-Wavelength Diode
Technology	Triple-Wavelength Diode
Wavelengths	755nm / 808nm / 1064nm
755nm	Alexandrite
808nm	Diode
1064nm	Nd:YAG
Skin Types	1–6
Cooling	Sapphire contact cooling
Cooling Feature	Ice Tip
Technique	In-motion
Handpiece	Triple-wavelength handpiece
Applications	Hair removal & skin rejuvenation

APPLICATIONS

- Hair Removal
- Skin Rejuvenation

WARRANTY

2-year warranty, parts and labour
