

Skin-matology Cryo Peptide Gel 125ml

A professional cooling and soothing gel formulated with Mulberry, Liquorice, Argireline® and Matrixyl® to complement aesthetic treatments.

A professional cooling and soothing gel formulated with a targeted blend of Mulberry, Liquorice, Argireline® and Matrixyl® to complement aesthetic treatments and support a refreshed, smoother-looking complexion. The combination of botanical extracts and advanced peptides helps support the appearance of more even-toned, hydrated and rejuvenated skin. Its cooling gel texture provides a refreshing sensation and is ideal for use following professional aesthetic treatments. Apply a thin layer on face and neck with a mask brush after micro-needling or any facial treatment.
