

Skin-matology Pro Peptide Microneedling Serum

A professional peptide-rich microneedling serum formulated with Argireline and Matrixyl to support a firmer, smoother complexion.

A professional peptide-rich microneedling serum formulated with Argireline® and Matrixyl® to support a firmer, smoother and more youthful-looking complexion. Argireline® and Matrixyl® are advanced cosmetic peptides that help support the appearance of skin firmness and reduce the visible appearance of fine lines. The formulation is designed to complement professional microneedling treatments while supporting skin hydration and overall skin renewal. Use 2ml to 5ml per treatment.
