

Skin-matology Hyaluronic & Squalene Moisturiser

A lightweight, hydrating moisturiser formulated with hyaluronic acid and squalene for a soft, smooth, supple complexion.

A lightweight, hydrating moisturiser formulated with hyaluronic acid and squalene to provide lasting moisture and help maintain a soft, smooth and supple complexion. Suitable for all skin types, this lightweight formula delivers an extra boost of hydration without feeling heavy or greasy on the skin. Ideal for morning and evening use, and perfect for layering with serums and other targeted skincare treatments.
